What people are saying about
her...

Larry Dossey MD

- Executive Editor, Alternative Therapies

- Mrs Eddy is a heroine of mine.
- I regard her as a great physician, a courageous explorer of the power of consciousness in healing.
- It requires immense courage to take the stand that she did.

Larry Dossey MD - Executive Editor, Alternative Therapies

- I think she would really love to see some of the developments in scientific medicine now showing the distant effects of prayer.
- She would not be surprised; she would be validated. And I think she would be very happy to see these developments.

John Fellers DD

- Executive Director, Institute of Religion

- Mary Baker Eddy kept reminding us in a very real way that there is an interconnectedness with what goes on in the soul, spirit, and what goes on in the body.
- This is the great 'medical school' contribution of Mary Baker Eddy.

Rev. Tina Saxon - Pastor, Baptist Church, Boston

- To find a woman so strong that she can heal body, spirit, and start a whole Church,
- Now that's something that'll stay with me for life.
